the Gobi Desert.

GERS EN ROUTE.

From Prospect to Mine in Just One Year.

PROPERTY WHICH HOME TAL-ENT WOULD NOT TOUCH.

After having witnessed the bringing into form of the great mill and power plants at the Annie Laurie mine, in Gold Mountain district, the company's president and general manager, L. C. Huck, accompanied by Mrs. Huck, will leave for Chicago today at noon.

It is only a few days over one year since Messrs. Kimberley and Huck secured a bond on the Annie Laurie property, then nothing more nor less than a good prospect with something like 350 feet of work done upon it, and decided to spend \$25,000 or more to learn whether they wanted to pay another \$250,000 in finally acquiring that and adjoining ground. On the first of last April, when the time arrived for them to decide, they had spent nearly \$50,000 instead of \$25,000 and the property had been sufficiently opened for them to feel satisfied with their bargain. When inatters pertaining to the title had been finally adjusted they paid the purchase price and went on with the systematic work then well under way and at once began preparations for the construction of a plant to treat the ores.

Plans were completed by June and contracts for machinery and material were let, and when President Huck left the mine Sunday morning, everything was in such shape that he was assured that by the end of the year the plant, which will have a capacity of 200 tons of ore per day, though origin. by intended to treat 150 tons only, will be ready to start.

Mr. Huck said last evening that he erty, then nothing more nor less than

tons of ore per day.

tons of ore per day.

tons of ore per day.

In the case of the perfectly safe in saying that there was not less than 200,000 tons of ore-now blocked out in the mine, which would repay them several times over for the expenditures which have been made, and as these are known to be not far from the \$500,000 mark, the record far from the \$500,000 ma

Able one.

No one acquainted with the ores of the Annie Laurie will say but what they will show better than \$10 per ton on mill runs and at that figure the mine has \$2,000,000 in sight, and by the first of the year or when the mill is ready to run, the mine will undoubtedly have been opened to a sufficiently greater depth to more than double the amount now in sight. The record is one which should appeal directly to the moneyed men at home who were pleaded with time and again and in more than one instance almost begged to supply the means which were considered necessary to do just what Messrs. Kimberley and Huck jumped at the opportunity to do.

Home capital refused to table is

Home capital refused to tackle it, principally for the reason that no big mines had previously been opened in the camp. They played a "waiting" game and men with greater nerve plucked the plum. They deserve to enjoy it.

CON. MERCUR'S DIVIDEND.

Will Be Declared About the 15th of October.

A statement made by Trecturer George H. Dern of the Consolidated Mercur Gold Mines company, yesterday, will be interesting to all who are speculating as to when the first divispeculating as to when the first divi-dend from that company will be an-nounced, and how they will follow after the start is made. Mr. Dern expressed the opinion that the directors, who are supposed to meet the first Monday in each month, would get together on Monday next, and, without taking for-mal action, would adjourn till about the 15th, when the result of the sec-ond month's run would be definitely known.

With the knowledge then before them they would know very nearly how much the mine could be depended upon to earn each month and an amount equivalent to two-thirds of what the first regular quarterly dividend would amount to would unquestionably be ordered paid.

"That" said Mr. D. With the knowledge then before them

Vice President John Dern is expected back about the end of the week, and will most likely be on hand for next Monday's meeting, and President Cohen, who is now at Captain De Lamar's California mines, will arrive in ample time to be at the a journed meeting of the board when the initial distribution will be declared.

DALY NOT TO SINK.

Superintendent Chambers Says Report to That Effect Is Not So.

Regarding the statement of the Park Record that the Daly shaft would be started down for the drain tunnel level at once, and that timbers for the work at once, and that timbers for the work had been ordered by Superintendent Chambers, that gentleman said yesterday that such was not the case. The timbers recently ordered by him were for usa in the Ontario shaft and not the Daly. In the latter property Mr. Chambers reports the drift on the 1,200 level as having been advanced something over fifty feet since active work began, and in running that distance about thirty-nine cars of sixty-ounce about thirty-nine cars of sixty-ounce ore has been taken out. He says there

ore has been taken out. He says there has been no particular change in the physical condition of the vein in that distance, and he is not prepared to say when a change is likely to occur.

It is not expected that the sinking of the shaft to a greater depth will be undertaken until conditions on the 1,100 and 1,200 levels warrant it. That was the understanding when work in the mine was resumed, and Mr. Chambers looks for no change in that programme.

HAD NO SIGNIFICANCE.

A. F. Holden's Resignation Centennial-Eureka Presidency.

Speaking of A. F. Holden's resigna tion of the presidency of the Centen nial-Eureka company, Manager C. E. Allen said vesterday that there was no significance whatever attached to it When the time of holding the first annual meeting arrived last spring Mr. Evans and other directors were in Utah, so that his election at that time, Utah, so that his election at that time, though intended, was impossible. After his return home he was taken sick and it was not until recently that he was able to attend to business, so Mr. Holden had been compelled to act as president during Mr. Evans' inability to serve. The latter gentleman being around again, at the recent directors' meeting in Boston he was installed into the position.

Mr. Holden still continues as managing director and Mr. Allen expects that he will reach this city about the 1st of the coming month.

1st of the coming month.

In the meantime all questions relating to new smelters and the treatmen ing to new smeiters and the treatment of the low grade ores produced by the mine will remain undecided and the rolling out of 100 tons of first-class ore per day under the \$4,000,000 contract with the American Smelting & Refining company will go steadily and uninterruptedly forward.

Ore and Bullion. Ore and bullion settlements in this Pills. 25c.

city yesterday amounted to \$125,819, as McCornick & Co., Mingo bullion, \$4,-700; ores, \$17,300.
T. R. Jones & Co., ores, \$56,000; bullion, \$30,500.

Bamberger & McMillan, ores, \$17,319. Metal Market. Silver, 62% cents per ounce. Copper, 15% cents per pound. Lead, A. S. & R. Co.'s price, \$4; New York exchange, \$4.37%; New York brok-ers', \$4. ANNIE LAURIE RECORD

Park Mining Notes.

James H. Kervin, for the past two years in charge of the Ontario assay

years in charge of the Ontario assay office, leaves on Monday to take the position of head chemist at the new 300-ton smelting plant of the Bingham Copper & Gold Mining company. George Kervin, his brother, who has been his assistant, succeeds him as assistant with a healthy volume of business, and the indications are that this, the closing week of the month, will be fully as good if not better, than any previous week. No material change is noted in the majority of stocks from the closing week of the price of Saturday.

Daly-West is stronger and sold yesterday being yet cents and succeed him as a succeed

ton yesterday.

Frank J. Westcott, clerk at the Ontario and Marsac mills, Park City, was in the city yesterday.

The Centennial-Eureka company reported the market of the call closed on the following figures:

Mining Notes.

W. Mont. Ferry is expected back from a week's trip into British Colum-bia tomorrow or next day. He is away on mining business. Martin K. Harkness is giving his at-tention to conditions underground in preparation for the approaching suit between the Grand Central and Mam-moth companies.

Manager John A. Hunt of the May Day will take unto himself a wife to-day and at once leave for an extended trip to the coast.

Simon Bamberger of the Lower Mam-moth management was at that Tintic property on Sunday. The property, Mr. Bamberger says, looks very encourag-ing.

Tintic Miner: The Eagle and Blue Bell has been closed down this week, owing to necessary repairs on the boilers. Most of the men have, however, been employed on surface work.

been employed on surface work.

Beaver County Blade: Messrs. Briant
S. Young and Albert Richter, the well
known mining operators of Salt Lake
City, were callers at the Blade office
Thursday, they being out on a tour of
inspection through the southern country. They struck the trail for Gold
Mountain from here.

James W. Neill had the misfortune to severely sprain his ankle while alighting from an automobile out near the Country club Sunday. He was confined to his bed yesterday and when amount to would unquestionably be ordered paid.

"That," said Mr. Dern, "will dispose of the August and September earnings, and the first regular quarterly distribution will be in order January 1."

Vice President John Dern is expected back about the end of the week, and will most likely be on hand for next Monday's meeting, and President Cohen, who is now at Captain De Lamar's California mines, will arrive in at his desk in the Highland Boy offices.

W. B. Donald, freight manager of the W. B. Donald, freight manager of the consolidated Kansas City Smelting & Consolidated Kansas City Smelting & Refining company, now a part of the American company, will arrive from Kansas City today and it is expected that he will give his attention to the closing up and shipping of the effects of the local gold sampling rooms during his stay. He will also more than likely arrange with producers to have their product shipped direct to Argentine after the 1st.

Willard F. Snyder will leave for Cold.

Willard F. Snyder will leave for Gold Mountain district tomorrow to look after matters at the Holland company's property. He has just returned from a trip into the northwest and declares that he would not give one little corner of Utah for the whole state of Oregon as a field for mining investments.

as a field for mining investments.

Beaver Observer: Mr. Robbins of Provo, who is acting in behalf of an eastern company in the purchase of the McGarry mining property in Iron county, says that he is now ready to consummate the deal. He also says that he is holding 25,000 acres of coal land in the eastern part of the state, and that when the property gets into the hands of the company they will at once proceed to connect the coal fields and iron beds by rail. As soon as this is done the road will be pushed on to the coast, all independent of any other road that may be in operation; and connection will be made with some one of the eastern roads. of the eastern roads.

Warning to the Public. Before buying Buckeye Mining com-

pany stock, verify same by telephoning the secretary, No. 598. There are thou-sands of shares of illegally issued stock BUCKEYE MINING COMPANY. Carpenters Move Headquarters.

Scranton, Pa., Sept. 24.—The biennial convention of the Carpenters and Joiners of America began its second week's work today, taking up constitutional questions. It was decided to remove the national headquarters from Philadelphia to Indiananalis. This matter delphia to Indianapolis. This matter goes to subordinate lodges for their ap-

New Steamer Is Burned.

Tocamo, Wash., Sept. 24.-The steam er Crest, running between Tacoma and Gigharbor, burned at the wharf at the latter place this morning. She was a new boat, costing \$10,000, and had been in vervice about three months. Hunt Brothers were the owners.

The by way of Sideria, have Jahough they London in good health, although they ever since, and with each succeeding the price has gone lower, and the price has gone lower. They will proceed immediately to the United States.

come more remote.

Within the nast few days these same wool men have been receiving circular letters from their eastern firms, most of them from Boston,, advising them that they are opening and grading all consigned wool to have it ready for the market in case of a rise in prices, but they hold out little encouragement of such a rise. The circular writers in the far east go on to say that the market is very dull; in fact in all their experience they have never seen so little demand for wool, and no one can explain the cause.

Halding on for Bettar Prices.

Driven From Place to Place.

Driven From Place to Place.

"We had no idea then of the terrible journey which awaited us," continued Mr. Williams. "We had no notion of having to escape across Siberia and only purposed to remain in some place of safety and return after the crisis. Wherever we attempted to stop, however, the officials ordered us to leave forthwith, declaring the Boxers were on our heels. Finally reaching a Mongol encampment, at Harausa, we saw that flight across the great Gobi desert was inevitable. Having secured a caravan we started June 23. Just before starting, seven Swedish missionaries, with their lamilies, who had just escaped with their lives, joined us. One lady had horrible experiences. She had been almost clubbed to death, while some of the males were frightful spectacles, being covered with blood.
"Our caravan consisted of twenty came is, nineteen horses and six camel carts, for the ladies and children. For eight days we traveled over nothing but sand. The air was like that of an oven, and the suffering was intense. The animals had no grass and no water and marching in the daytime was impossible. At the few isolated wells Mongols were encamped in the vicinity and they refused to allow us to draw water, fearing we would poison the wells.

Forced by Russian to Leave.

The market reports from Boston are very discouraging as to wool. The Boston are very di

Forced by Russian to Leave. "I had bronch said Mrs. Miner lill. "and at tim seed of the desert. We presented a sorry spectacle. The Russian consul general was most kind. He gave up to us four-teen rooms in the consulate. But, to our dismay, the consul told us we must leave forthwith, as there were 2,000 Mongol soldiers in the neighborhood who might be hostile. He also warned us that the tens of thousands of Mongols were gathered for a religious festiyal and that if we valued our safety we had better clear out without delay. "A fortnight later, Aug. 13, we reached Kiak Hta, and remained there until Aug. 27.

Alax Hia, and remained there until Au.: 27.
"In the meantime, Mr. Tower (Mr. Charlemagne Tower, United States ambassador to Russia) obtained permission from the authorities at St. Petersburg for our journey over the Siberian railway. Arriving at Irkutek, Sept. 2, we took a train and reached St. Petersburg Sept. 28.

Kind Words for Russians.

EPIDEMIC IS SERIOUS.

Yellow Fever Is Reported Bad in Havana.

Washington, Sept. 24.-The surgeon general's office of the war department has no information regarding the epi-demic of yellow fever in Havana, Private advices indicate that the outbreak is serious. The fever exists in the best parts of the city and among Amer-

parts of the city and among Americans who have gone there.

It is said at the war department that no fears are entertained of a serious outbreak among United States troops, as they are outside the city and not in the infected districts. Surgeon General Sternberg does not think there need be any apprehension concerning the spread of the disease.

GIRL SHOOTS FATHER. Attempts Murder Because Brother Is

ties, \$1.50.

Coming fast now for Winter things.

Just needed a drop in thermometer to send them-that's all.

Some of the fast going things are Overcoats. And we never were so overcoat ready as now.

Here's one style that ought to last just about two days when right eyes fall upon them. They're of an Oxford gray-made to imitate the popular Covert cloth.

The fabric is double faced, that is Oxford gray on outside, gray plaid on

Full French taced, piped with satin, box cut back, strap seams on shoulders and sides, cut proper length, tailored just like all other Gardner garments.

The Underwear.

My, how the underwear does melt away.

Now you know as well as we do that this underwear business wouldn't grow like it does, if we didn't give the best underwear

You needn't take our say so, however; come and judge for yourself.

Don't cost anything to judge. And even if you judge in our favor—and find you are mistaken when you get home—come back

and get your money.
\$1.00 to \$8.00 the suit.
A splendid all-wool natural color at \$3.00, worthy of special mention. Shirts with double breast. Drawers with double seat.

The Hats.

That summer hat looks a little out of season.

Better come right away and get new one. We care not what your hat fan-

cy may be, we can suit you. We can suit your particular style of face, too.

Stiff or soft. \$1.00 or \$5.00.

Price \$12.00-and hundreds of others \$7.50 to \$30.00.

Or three or four places in between. All this season's shapes and

colors, too. Too many hats go out of here to let any get even a season old. Boys need hats, too. 50c to \$1.50.

And we sell them like we sell everything else.

working gloves.

here for them.

for your money.

Money back if you want it. Working gloves start at 25c and run up to \$1.50. Some with gauntlets - some

The Gloves.

Every man who works out of

doors these days needs a pair of

Every man who needs a pair of

There's no question about that.

'Cause we sell you the best

working glove that can be made

working gloves ought to come

without. Some lined-some unlined.

Boys need Winter things too-Overcoats, Hats. Caps, Underwear.
